

Ladies and Gentlemen of the FCC:

I would like to thank you for your consideration in this matter. I believe that the Wisconsin "no call" list should not be disregarded and the national list used in it's place. I do not wish to have any telemarketer call me to promote their products/services. I find their calls intrusive and often times demeaning. I feel that with the reduction in protection that the Wisconsin list is not the proper course of action for the company that wishes to find a new customer base. There are better ways to advertise one's company rather than disrupting people at home when time is never convenient.

Please let the Wisconsin "no call" laws for telemarketers stand as they are and allow our local governmental officials continue making rules that protect our state citizens as they see fit.

Respectfully,
Jennifer Moore
